CORNER GUARDS - SATIN FINISH

Corner Guards are resistant and durable profiles, manufactured to protect the corners of the walls from impacts, providing an aesthetic finish. Excellent for use in hospital environments.

They can be used as a finish in various applications, such as ceramic tiles, masonry, wood, built-in cupboards, doors, partitions, elevators, among others.

Made of PVC, the Corner guards are low cost, do not require paint and help avoid maintenance costs on the corners of the walls.

It can be applied with double-sided tape or contact adhesive.

Lengths:

- 3 m for all TEC's in all colors.
- 1 m for TEC 241 and TEC 242 in White with double-sided tape (display packaging).
- 120 m for TEC 029 and TEC 009 in all colors, with or without double-sided tape
