ABOUT THE COMPANY

High-Performance Thermoplastic Solutions

Since 1994, Tecnoperfil has stood out for offering innovative thermoplastic products, with a focus on PVC. Completing three decades of experience, the company creates customized solutions for construction, industry, services, and hydroponic agriculture.

Tecnoperfil combines innovation and sustainability in the production of customized and recyclable solutions, with international standard raw materials. Its specialized team guarantees quality, efficiency, and durability in every project.

tecno

The TECNO identity reflects Tecnoperfil's socio-environmental commitment, consolidating its position as a socially responsible company.

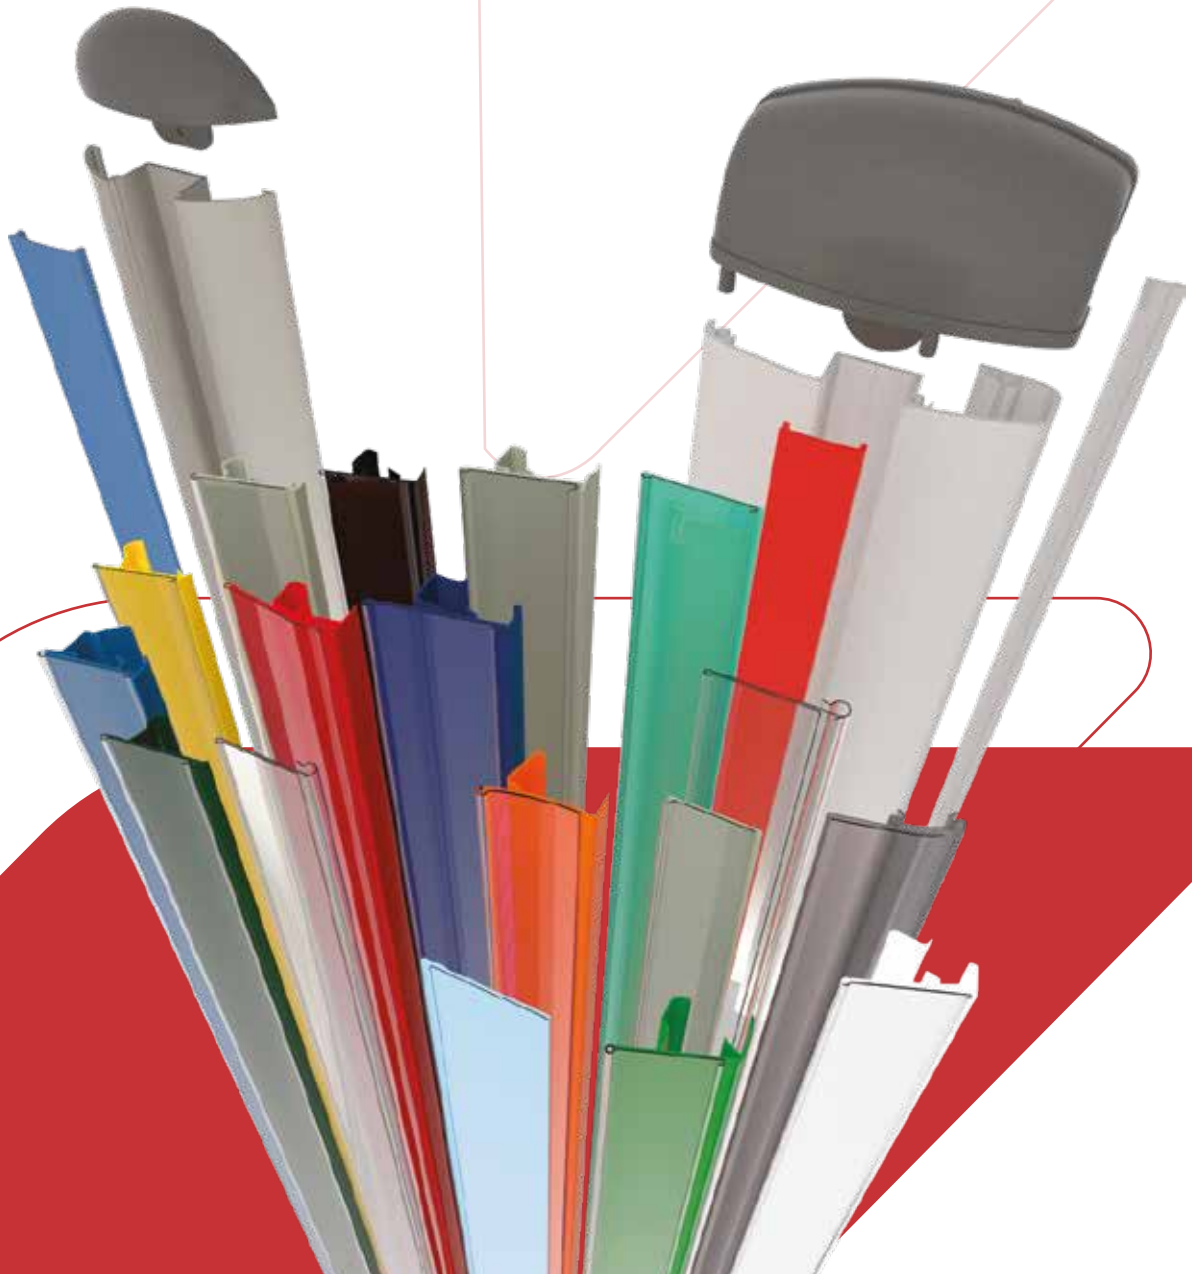

About the Products

Among the main in-line products at Tecnoperfil are refrigeration profiles, label holders, electronic label rails, check-out wall protection profiles, Vinylshock handrails and crash rails, corner guards, finishing profiles for ceramic tiles, and Hortivinyl hydroponics products.

The company also develops customized technical profiles according to the customer's needs, designing profile projects for the most varied purposes.

ISO 9001

Tecnoperfil has obtained ISO 9001 certification, which means it follows the established criteria and requirements to guarantee the quality of its products and services. This demonstrates the company's commitment to meeting customer needs and continuously improving its processes.

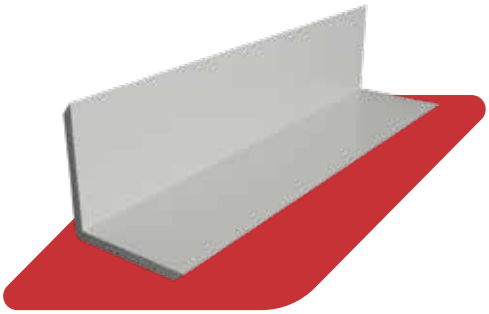

Corner Guards

Tecnoperfil's Corner Guards are resistant and durable profiles, manufactured to protect corners against impacts. They make environments more hygienic because they facilitate cleaning.

They can be used for finishing in various applications, such as internal linings of box trucks, clean rooms, cold chambers, and in the industry in general.

Refrigeration Profiles

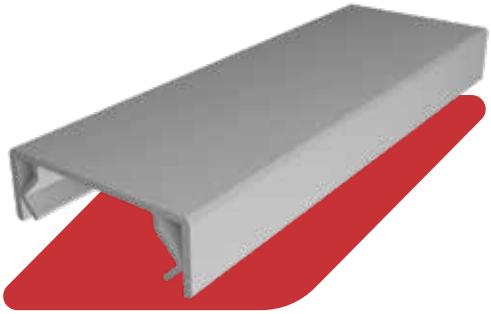

Tecnoperfil also offers a wide variety of profiles for commercial refrigeration.

These components are manufactured with high-quality PVC and are designed to ensure adequate thermal insulation, wear resistance, and easy installation.

They are essential for the proper functioning and conservation of energy efficiency in refrigeration equipment.

Label Holders

Used in supermarkets, pharmacies, hardware stores, self-service stores, and commerce in general, pricing tags or label holders decorate gondolas and shelves, being used to provide information about prices, details, and codes of exposed products.

Resistant, decorative, and functional, label holder profiles are produced by Tecnoperfil in various colors and sizes to suit the diverse shelving models available on the market.

Check-Out Profiles

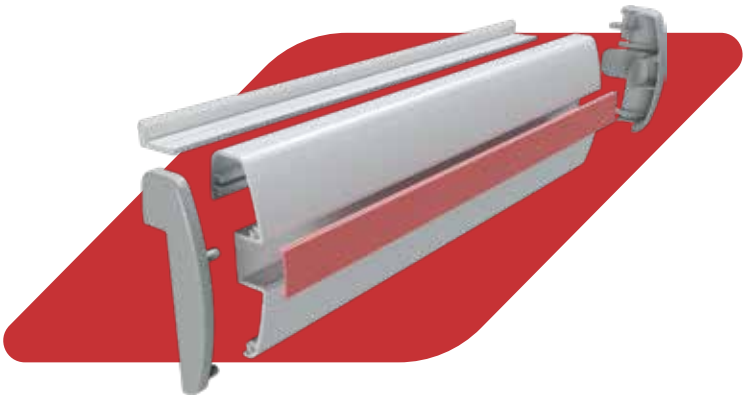

Tecnoperfil's self-service profile system is a solution designed to provide a variety of protection options for checkouts, self-service counters, and refrigerated displays.

Made with rigid PVC and polypropylene accessories, these profiles guarantee an excellent finish and harmonious integration into the equipment they are applied to. Their installation is simple, offering a range of colors to choose from, easy maintenance, and moisture resistance.

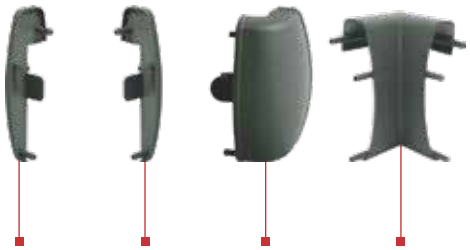

Furthermore, they do not propagate flames and are easy to clean. The assembly of the profiles provides impact resistance, ensuring durability to the final product.

Miscellaneous

Tecnoperfil offers a complete line of miscellaneous profiles, developed to meet the most varied needs of the industry, construction, transport, and decoration. Produced in high-quality, recyclable, and resistant PVC, these profiles offer practical and versatile solutions for finishing, protection, organization, and design.

Among their applications, their use in steel furniture, document binding, frames, guides, structural supports, and bus side protection stands out. With varied formats - such as flat, "L" shaped, "T" shaped, and "U" shaped - the profiles of the Miscellaneous line easily adapt to different projects, ensuring practicality, durability, and a sophisticated finish.

Special Projects

Transform your ideas into reality with Tecnoperfil! With three decades of excellence in plastic profiles, we offer not only a broad product portfolio but also customized solutions that meet your specific needs. By choosing Tecnoperfil, you bring quality, trust, and commitment to your project, used worldwide.

Why choose Tecnoperfil?

- Security in project confidentiality;
- On-time service;
- Standardized production for continuity and efficiency;
- Logistics focused on meeting deadlines and preserving products;
- Compliance with Regulatory Requirements.

Trust our experience and expertise to transform your ideas into reality with Tecnoperfil.

Technology with a purpose, caring for the planet and people

At Tecnoperfil, we believe that progress is only valuable when it goes hand in hand with respect for the environment and commitment to society

tecno

Aware of its role in the industry, in society, and in the environment, TECNOPERFIL strives to implement activities aimed at the development of employees, through participatory management that promotes social responsibility. Our commitment is to respect the environment and people through responsible administration policies.
